

Nasser Parooei

Senior Software Developer

👤 Profile

For more than 8 years, I have been involved in the design and development of microservices and front-end applications. I have worked with various cloud environments, with a particular emphasis on AWS, where I have gained extensive experience in serverless technologies and Infrastructure as Code (IaC). Additionally, I worked with GCP, Firebase and Ali Cloud.

On the front-end side, I worked in React and React Native, creating responsive and efficient user interfaces. My professional portfolio includes the successful implementation of microservices serving to over 10 million users.
